It May Save Your Life

The object of this advertisement is to instruct people in the early symptoms of tuberculosis or consumption, so that they will go to physicians before it is too late.

SUSPICIOUS SYMPTOMS

Cough or expectoration, even if only a little in the morning, which you hardly notice, if continued over two months.

Frequent "Bronchial," "Grippe" or Fever attacks very suspicious.

Blood Spitting. If blood is coughed up the cause is tuberculosis nine times in ten.

Pleurisy. Caused by tuberculosis about seven times in ten.

Night Sweats. Very suspicious.

Loss of weight and strength very suspicious, especially if there is slight cough.

If any of these symptoms are present, no matter how well you look or feel cut out this ad., take it to your physician and explain your case. You can be cured if you take it in time. Thousands of patients, who have been treated in the incipient stage are well today.

Head Constable Mercer Tiverton, has been appointed an inspector under the "Wart Diseases of Potatoes Order." His other appointments are: Borough police chief, fire brigade captain, inspector of food and drugs, petroleum, explosives, meat, weights and measures, shops act, mildew in gooseberries, fabrics (misdescription) act, common lodging houses, sheep dipping order, cattle diseases and assistant relieving officer. — London Times.

A good shampoo is made as follows: Dissolve half an ounce of transparent soap in a quart of rain water, add a small wineglassful of some fragrant oil. Let it stand a few days, shaking it now and then before using it. It's easy for women to get excited over a thing they can't understand.
